Caltrans Ape Map Guidelines - alfagiuliaforum.com  
APE has been established with a 15 ft from the center-line of the proposed trail, construction access, and trailhead access and parking area to accommodate work and staging areas.

### **Paleontology | Caltrans**

1. determine and locate on a map proposed practices and practice locations, 2. determine whether the practices constitute an undertaking in relation to the NHPA and the Florida NRCS cultural resources review process, 3. consider whether proposed practices may entail indirect effects and, if so, where these may occur, and 4.

### **California Temporary Traffic Control Handbook**

1. General plans or guidelines should be developed to provide safety for motorists, bicyclists, pedestrians, workers, enforcement/emergency officials and equipment, with the following factors must be considered: a. The basic safety principles governing the design of permanent roadways and roadsides should also govern the design of TTC zones.

### **Caltrans Policies | California Active Transportation**

Caltrans conducted a field review of the project site on November 30, 2000. To complete any necessary reports, an Area of Potential Effect had to be identified. On January 30, 2001, Caltrans approved an Area of Potential Effects Map (APE) that identified 13 properties as potentially affected by the development.

## **Caltrans Ape Map Guidelines**

APE are protected from any potential effects by establishment and effective enforcement of an ESA...Caltrans may consider such properties to be NRHP eligible for the purposes of that undertaking without conducting subsurface testing or surface collection.” • Details matter!
