Student Exploration Gizmo Identifying Nutrients Answers

Metaphors in biology are often encountered in the description of cell structure and function. Describing the cell as a “city” is a case in point as it offers a good opportunity to get students thinking about the structural and functional details of their knowledge as well as to require them to “think outside the box.”

Data and Computer Communications, 10th Edition - Pearson

Crustacean, any member of the subphylum Crustacea, a group of invertebrate animals consisting of some 45,000 species distributed worldwide. Crabs, lobsters, shrimps, and wood lice are among the best-known crustaceans, but the group also includes an enormous variety of other forms without popular names.
