Many of the most pressing policy challenges for the APS involve dealing with very complex problems. These problems share a range of characteristics—they go beyond the capacity of any one organisation to understand and respond to, and there is often disagreement about the causes of the problems and the best way to tackle them. These complex policy problems are sometimes called ‘wicked

A weighted decision matrix is a decision tool used by decision makers. A decision matrix is basically an array presenting on one axis a list of alternatives , also called options or solutions , that are evaluated regarding, on the other axis, a list of criteria , which are weighted depending on their respective importance in the final decision

## **Double Irish arrangement - Wikipedia**

factors are challenging decision makers to find new approaches and policies to advance economic progress. The emerging consensus is that economic growth once again needs to focus more on human well-being. Such human-centric economic progress is multidimensional by nature—it is broad based by benefitting the vast majority of people
